

Copper Levelwound Coil Package for Tubing In Bulk
 Skid Package cannot be stacked 2 high during transit or while in stock!

Maximum Skid
Size
(45" x 45" x 45")

Copper LWC (Bulk) Shipping Skid Package

Individual Copper LWC Bulk

Levelwound Coils range from 1/8" to 7/8" in O.D., .012" to .049" Wall thickness
and Tempers ranging from Hard to Soft and anywhere in between.

Seamless Tube, Alloy UNS C12200 DHP Copper Material meets ASTM B 68, B 75, B 743 and E243

¹ Custom O.D., Wall and or Tempers can be quoted as required.

• Individual Levelwound Coils, in bulk form, are stacked with cardboard disks as separators then plastic wrapped as a package onto a skid. Coils are either 12" widths of 9" Widths. Coils per skid are dependant on coil width. Skids with Coils of 9" width have 4 coils per skid, Coils of 12" width have 3 coils per skid.
